Belajar Dasar Structured Query Language (SQL)

Refa Muhammad

Informatics Engineering | AI Enthusiast | Pentester | Active in Open Source Projects & AI Research
Bandung, West Java, Indonesia

Summary

I'm an Information Technology student and AI Engineer at PT PowerComm Technology. I focus on backend development and AI solutions such as NLP, OCR, and predictive modeling. I also work as a frontend developer for Organify, a smart to-do list app built with Flutter and enhanced with AI features. I actively contribute to open-source and research projects in intelligent systems.
